SKILLS

Python

Git

Linux

Django

Kafka

C/C++

Java Spring

GUI Programming

LANGUAGES

English

Full Professional Proficiency

Turkish

Native or Bilingual Proficiency

Python

Native or Bilingual Proficiency

INTERESTS

Custom Keyboards

Chess

3D Modelling

VFX

EDUCATION

Computer Engineering Istanbul Technical University

09/2017 - 10/2021

Istanbul

Courses

- Artificial Intelligence
- Functional Programming
- Analysis of Algorithms
- Data Structures

WORK EXPERIENCE

Intern

Application and Service Development Team @ Kartaca

06/2021 - 08/2021

Achievements/Tasks

- Worked on a Subscription Lifecycle Management System that will integrate to 3rd party apps

Junior

Product and Service Management Team @ Kartaca

10/2021 - 11/2021

Achievements/Tasks

- Worked on upgrading an LDAP service which is used by company to the latest version

ORGANIZATIONS

ITU Free Software Club, Beginner Level Python Course Instructor (09/2018 - 01/2019)

Taught Python at beginner level voluntarily

CERTIFICATES

Free Software Summer Camp, Intermediate Level Python Course Attende (07/2018 - 08/2018)

Improved my skills about Qt, Matplotlib and unittesting in additon to learning to handle jobs in background with Celery.

Free Software Summer Camp, Second Level Linux Course Attende (07/2019 - 08/2019)

PROJECTS

Requests Dashboard [↗](#)

- A simple web application that visualizes requests for a toy api over time. I used Kafka, python-plotly and Django in this project.

RatTrap [↗](#)

- GUI for ratslap - mouse configuration tool. I wrote this tool to easily configure my mouse.

sis++ [↗](#)

- A web application developed to suggest a schedule to ITU students based on the courses they have taken before.

ACHIEVEMENTS

Bronze badge for Python tag on StackOverflow [↗](#)

Bronze badge for Python3 tag on StackOverflow [↗](#)
